Summary

Computer Science undergraduate graduating in 2027 with hands-on experience building and deploying full-stack web applications using Java, Spring Boot, Node.js, React.js, REST APIs, PostgreSQL, and MySQL. Strong foundation in data structures, algorithms, OOP, DBMS, and software engineering principles, with practical experience in API development, authentication, database integration, debugging, testing, and performance optimization. Experienced with Docker, Git, AWS, and CI/CD workflows, with a strong focus on developing scalable, maintainable, and user-focused software solutions.

Technical Skills

Languages:	Java, Python, C, SQL
Core:	Data Structures & Algorithms, Object-Oriented Programming, DBMS, Problem Solving
Backend:	Spring Boot, Node.js, Express.js, FastAPI, REST APIs, API Integration, Web Services
Frontend:	React.js, JavaScript, TypeScript, Tailwind CSS
Databases:	PostgreSQL, MySQL, Schema Design
DevOps/Cloud:	Docker, Git, AWS, Render, Vercel
Engineering:	Agile, Scrum, Requirements Analysis, Technical Solution Design, Software Testing, Debugging, Performance Optimization

Education

Bachelor of Technology in Computer Science Engineering	Sep 2023 – Jun 2027 (Expected)
Koneru Lakshmaiah University	CGPA: 8.85

Experience

Technical Member - KL Radio	Aug 2025 – Present
------------------------------------	--------------------

- Supported the development, deployment, and maintenance of a real-time broadcasting platform serving 100+ concurrent listeners with approximately 2–3 seconds of audio latency.
- Diagnosed and troubleshooted audio broadcasting issues during live shows, supporting reliable audio delivery and service continuity.
- Trained junior interns in audio editing and broadcasting workflows, sharing technical knowledge and supporting smooth live event operations.

Software Developer Intern - AICTE EduSkills	Apr 2025 – Jun 2025
--	---------------------

- Developed backend services using Node.js for a full-stack application, implementing REST APIs to support application functionality and data processing.
- Tested and debugged REST APIs, identifying and resolving backend processing issues through systematic troubleshooting and endpoint validation.
- Integrated application components and validated API functionality to support reliable data exchange and maintainable application development.

Projects

Gov-Connect	GitHub Live
--------------------	---------------

- Developed a full-stack government services platform using TypeScript and modern web technologies, providing a centralized interface for citizens to access and interact with government-related services.
- Built responsive and user-friendly frontend components with reusable UI architecture, client-side routing, and API integration for seamless application workflows.
- Implemented structured data handling and application logic to support service discovery, user interactions, and efficient communication between frontend and backend components.
- Deployed the application on Vercel and maintained the project using Git and GitHub, enabling accessible production delivery and version-controlled development.

KL Radio Real-Time Broadcasting Platform	klradio.in
---	------------

- Developed major modules of a real-time broadcasting platform using React, Python-based WebRTC audio transfer, and REST APIs, supporting live audio communication and application functionality.
- Developed REST APIs and PostgreSQL-backed services for live shows, scripts, podcasts, student announcements, and real-time song suggestions.
- Implemented authentication and role-based access control, deployed the platform, and integrated features for live shows, podcasts, scripts, announcements, and song suggestions.

Certifications

AWS Certified Cloud Practitioner	AZ-900 Microsoft Azure Fundamentals	Cambridge Linguaskills
Scrum Fundamentals		

Achievements

- Participated in Google Agentathon, gaining hands-on experience building AI agent applications and solving technical problems.
- Senior Technical Member at KL Radio and Core Member of Radio Fiesta, coordinating technical operations across 15+ live shows.
